

Level 3 Certificate of Professional Competence for Transport Managers (Road Haulage) Unit R2

05689

Friday 12 March 2021
1.00 pm – 3.15 pm

Time Allowed: 2 hours 15 minutes

You must have:

- the case study

You may use:

- a calculator
- a dictionary
- any permitted written materials

Centre name											
Centre number						Candidate number					
First name						Last name					

INSTRUCTIONS

- Fill in all the boxes above, in capital letters.
- Use black ink.
- Use the case study to answer all the questions.
- Write your answer to each question in the space provided. If you need extra space use the lined page(s) at the end of this booklet. The question numbers must be clearly shown.
- Additional paper may be used if required but you must clearly show your candidate number, centre number and question number(s).
- Answer **all** the questions.
- Do all calculations and rough work in this booklet. Cross out any work you do not wish to have marked.

INFORMATION

- The total mark for this paper is **60**.
- The marks for each question are shown in brackets [].
- This document has **12** pages.
- **Brexit:** Assessment material has been prepared in line with legislation current at the time of production. Answers that refer to recently amended legislation will be credited. Answers that refer to out of date legislation will not be credited.
- **Covid-19:** Candidates will not be questioned on any temporary rules introduced due to Covid-19. Answers that reflect such measures will not be credited.

PLEASE DO NOT WRITE ON THIS PAGE

- 1 Alison Indigo describes the collection of 78 pallets of goods, to be completed today. You are required to plan the routes for the three available vehicles and inform the supplier's site managers the exact time that loading must start at each of their sites.

Use the information provided in the case study to prepare a collection schedule, using three vehicles and following the instructions that Alison has given.

Supplier site	Collection time	Space for workings, if required
A		
B		
C		
D		
E		
F		
G		
H		
J		

[9]

- 2 Alison Indigo describes the single-manned delivery of 26 pallets of goods to Vantoux, to be completed today. You are required to give a schedule to the driver.
- (a) Use the information provided in the case study to prepare a driver schedule, following the instructions that Alison has given. Your schedule must start when the driver begins work at the Depot and end on arrival at Vantoux, no later than 09.00hrs, local time.

NOTES

You **MUST** show the destination for all driving periods.

You **MUST** show a clear description of each activity, including breaks and rests.

You **MUST** show local times.

Tachograph modes are not required.

Start time	Finish time	Activity description
19:00		

[9]

- (b) OCR must consider the implications of future loads to Vantoux having to arrive 1¼ hours earlier. You want to impress your new boss by providing a solution, without changing the route, and without changing the average speed.

Describe **ONE** way that the driver schedule to Vantoux could be changed, so that future deliveries could arrive by 07.45hrs. You **MUST** outline how your suggested change will achieve the desired result.

.....

..... **[2]**

- 4 Alison Indigo describes eight issues that may require actions to be taken regarding operator licensing.

Using the information provided in the case study, state whether each issue requires either an application or notification to the Traffic Commissioner. You must also give the latest date by which the relevant application or notification (if any) must be submitted to comply with operator licence rules and undertakings and to meet Alison's requirements.

Issue		Application, Notification or Neither	Latest date for submission
1	Add a Transport Manager		
2	Change of company name		
3	Add two 3,500kg GVW vans		
4	Increase vehicle margin		
5	Dispose of two vehicles		
6	Add two vehicles within margin		
7	Add new operating centre		
8	Add new maintenance provider		

[15]

- 5 A Transport Supervisor has interviewed four drivers to take temporary work with OCR. Details of their driving licences are set out in the case study.

For each of these drivers, state the heaviest vehicle or vehicle combination from the following list of those in the OCR fleet which may be driven.

Available vehicles

- 3,500kg GVW van
- 7,500kg GVW rigid lorry
- 18,000kg GVW rigid lorry
- 26,000kg GVW rigid lorry
- 18,000kg GVW rigid lorry towing a 9,000kg MPW trailer (train weight 27,000kg)
- 40,000kg GVW articulated combination
- 44,000kg GVW articulated combination

Name	Heaviest vehicle which may be driven
Adrian	
Beata	
Charles	
Donna

ADDITIONAL ANSWER SPACE

If additional answer space is required, you should use the following lined page(s). The question number(s) must be clearly shown in the margin(s).

The form consists of a vertical solid line on the left side of the page, followed by 25 horizontal dotted lines. These lines are spaced evenly down the page, providing a template for writing answers. The dotted lines are intended to guide the student's handwriting.

This image shows a blank sheet of lined writing paper. It features a solid vertical line on the left side, creating a margin. The rest of the page is filled with horizontal dotted lines, spaced evenly for writing. There are approximately 25 rows of dotted lines across the page.

A large area of the page is reserved for writing, featuring a solid vertical line on the left side and horizontal dotted lines extending across the page.
